PROFESSIONALS TRUST IN QUALITY!

Since 1910 thermohausser represents outstanding quality. We offer holistic systems for food transportation, no matter which challenges you face in this sector. Moreover, we offer a wide range of useful kitchen tools. With long-term expertise and a spirit of innovation we optimize and develop new products for the gastronomy, big kitchens, bakeries and confectioneries.

We highly appreciate the feedback from our customers. We're aiming at developing flexible, efficient and modular products. Thus, we care a lot about a close communication with our users: the dialogue on par with our customers helps us to constantly improve our products according to their needs and to ensure efficiency in their businesses.

In all of this sustainability plays a big role for us: With clever designs and an ideal choice of materials we save valuable resources and contribute our share for a better future.

The thermohausser team is available to answer all the questions you may have.

Enjoy browsing our catalog and using thermohausser products in your daily work.

FOOD TRANSPORTATION & INSULATION

EPP INSULATION BOXES

FOR THE IDEAL FOOD TRANSPORTATION!

From EPP insulated boxes, ice and heat packs to reusable food containers - thermohausser offers a wide range of specialized products to facilitate the transport or temporary storage of food items! Our innovative solutions ensure optimal temperature control, maintaining the freshness and quality of your food during transit. Trust thermohausser for reliable and efficient food logistics support.

FUNCTIONALITY MEETS DESIGN

SOPHISTICATED, FUNCTIONAL AND OF COURSE SUSTAINABLE. A REUSABLE SYSTEM THAT EVERYONE WILL LOVE.

GOODBOWL – THE KEY FACTS

- 100 % recyclable
- Microwaveable and dishwasher safe
- Temperature resistant from 14 up to 212 °F
- Durable: bowls withstand up to 1,000 dishwashing cycles
- Made in Germany

A clear view.

Slightly transparent lid makes it easier to identify content. Avoids need for labelling and prevents confusion.

Secure transport

Firmly sealed lid for maximum security.

Perfectly stackable.

Well-designed lid and base make containers easy to stack. Even for different sizes.

Varied.

Bowls available in lime, blue, sand, green and anthracite.

Easy separation.

No jamming of trays after rinsing process due to stacking cams.

Ideal grip.

Stacking feet ensure secure transportation and no slipping.

TWO NEW SIZES

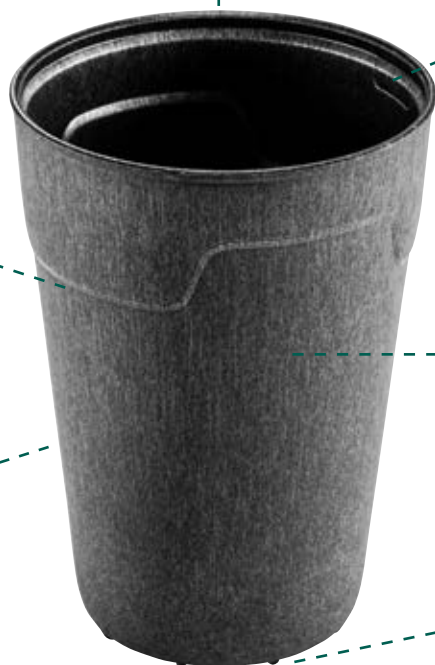

Find more information about the GoodBowl series here:

NEW AND GOOD TO GO

THE LATEST ADDITION TO OUR GOODBOWL FAMILY:
THE INSULATING CUP COMPLIMENTS OUR REUSABLE SYSTEM

Individual.

Can be used with lids size Ø 3 1/2", reusable and disposable. Not included.

Very easy.

Marking on the inner rim helps to fill approx. 13.5 ounces.

Perfectly stackable.

Striking design line prevents the cups from sticking.

Innovative. Foamed PP gives the cup a high stability and is pleasantly light at the same time.

Good to go.

Keeps drinks hot or cold longer on the go.

Secure stand. Feet ensure a stable stand and prevent tipping over.

- ✔ Excellent insulation thanks to a new manufacturing process (foamed injection molding)
- ✔ 100 % recyclable, made from polypropylene mono-material
- ✔ Sustainable thanks to 30 % less material*
- ✔ Microwave and dishwasher safe
- ✔ Made in Germany
- ✔ BPA free and suitable for the catering-industry

* Compared to a standard PP cup with the same material thickness.

GOODBOWL

GOODBOWL

HOT AND COLD - ALWAYS THE RIGHT CHOICE

THE COMPREHENSIVE SYSTEM THAT OPTIMIZES YOUR FOOD TRANSPORT SO YOUR PRODUCTS WILL REACH THEIR DESTINATION AT THE RIGHT TEMPERATURE.

THERMOCELL - THE KEY FACTS

- By 35% shorter charging time
- Gastronorm format
- Dishwasher safe
- Sustainable thanks to less material
- Made in Germany

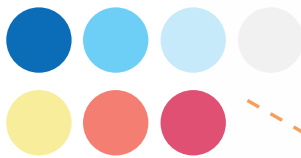

HOT AND COLD: THE RIGHT ICE/HEAT PACK FOR EVERY REQUIREMENT

The ThermoCell series consists of seven different ice/heat pack types. Each is specially developed for a specific temperature range. Whether for frozen and chilled products or hot food: with the right ice/heat pack, hygiene standards are met and products will reach their destination at the right temperature.

All-rounder.

The perfect ice/heat pack for every application. Easy to recognize by the different colors.

Easy.

The ergonomic grip hole in the centre of the pack promises easy handling.

Design line.

Looks good and the beaded edge makes it easier to insert into all front loaders.

Space-saving.

The feet integrated into the design ensure easy stackability.

Fast charging.

The low overall strength of the pack allows a by 35%* shorter charging time.

Quick connect.

Hooked together on the profiling, two packs can be pulled out of front loaders together as a chain.

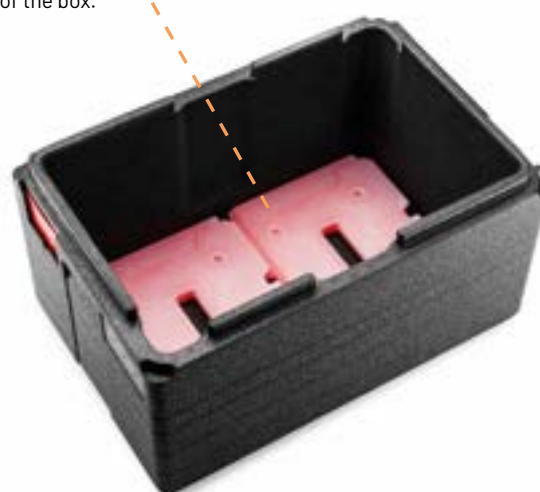

* compared to standard ice/heat packs with 1.2" overall strength

HOW TO USE THERMOCELL

The ThermoCell ice and heat packs in 1/2 hotel pan format are suitable for EPP boxed such as the thermobox HOTEL PAN GASTROSTAR. However, ThermoCell are also optimized for use in front loaders such as our box COMBI HOTEL PAN (page 19).

Ideally, two ThermoCell GN 1/2 packs should be used in a GN 1/1 EPP box. As the cold sinks to the bottom, the ice packs are placed on the GN containers or the products. Heat, on the other hand, rises upwards. Therefore the heat packs are ideally placed at the bottom of the box.

The cooling frame is useful when unpacked goods are transported. It prevents direct contact between the ice packs and products. This prevents freezer burn and deformation can be avoided.

If the box is to be loaded to the maximum, the cooling frame helps by creating additional space.

The ThermoCell packs can be hooked together and can then be easily inserted into and removed from front loaders.

Check page 17 for more information about the new ThermoCell or scan the QR code to see the ThermoCell video clip!

WHAT YOU SHOULD KNOW ABOUT OUR EPP BOXES

TRANSPORTATION AND INSULATION BOXES MADE OF EPP

Our insulation boxes made of EPP (expandable polypropylene) are extremely light weight, but robust and food-safe. Above all, the thermohäuser boxes are a perfect choice to store and transport food items. They are the perfect solution for short and medium term transport. Furthermore they are recyclable and easy to clean and even dishwasher safe.

Our product range is constantly evolving. For example the new EPP Box GN 1/1 and EPP Box Universal now coming with a completely watertight inside surface for easier cleaning and better hygiene as well as a design change of the outside surface.

PASTRY BAGS & ACCESSORIES

FOR YOUR TASTY CREATIONS!

For decades, we have developed (always in close cooperation with professional end-users) a comprehensive know-how in and around pastry bags and accessories.

Our pastry bag product range includes various reusable bag qualities as well as a number of disposable, thus extremely hygienic one way products. No matter, if the bags are reusable or disposable ones, the quality of the product and its production are paramount.

With regards to quality and size, as well as all other options (such as printing, labeling or special packaging*), your demands and requirements prevail.

To put the icing onto almost every cake, the range of pastry bags is completed by a broad variety of accessories, such as piping tips in different materials, colors, sizes and shapes.

*MOQs will apply

PROMOTIONAL PRODUCTS

ATTRACTIVE AND PRACTICAL PACKAGING

Some of our products from the field of pastry bags and accessories as well as tools and utensils are ideally suited to be effectively presented to interested customers at a display in your shop.

You also have the opportunity to use some of our products to promote your company name. There are different private labeling techniques available.

SUCCESSFUL PROMOTION WITH THERMOHAUSER!

Your intention is to stay in your customers' mind?
Take one of our attractive and useful products and
make it promotional with your brand on it!

Numerous of our articles are perfect to be used for
advertising and promotional purposes. There is a
variety of technical options to grade a product to
become a unique eye-catcher!

Whatever you want to be shown on the product, we
will support you with our experience to find the best
technique and to settle all questions concerning colors,
quantities and technical requirements.

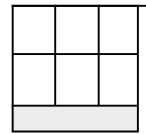

Your ideas, our products and our expertise –
this will be the perfect combination to keep your
name the best in your customers' mind!

PLEASE SEE OUR SUMMARY OF THE MOST COMMON ADVERTISING TECHNIQUES:

PRINTING

- suitable for different surfaces
- single- or multicolor printing possible (one screen per color)
- attractive result

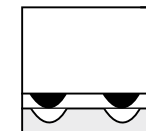

LASER ENGRAVING

- suitable for different surfaces (stainless steel)
- long-lasting, attractive result

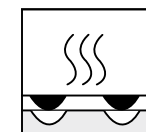

STAMPING

- suitable for metal surfaces
- long-lasting, attractive result

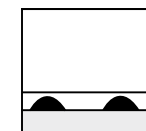

BRANDING

- suitable for wooden surfaces
- design is firmly stamped into the wood
- long-lasting, attractive result

EMBOSSING

- suitable for plastic surfaces
- the imprint has always the same color as the product
- long-lasting, attractive result

STEP BY STEP TO YOUR INDIVIDUAL ITEM!

1. YOU CHOOSE AN ARTICLE WITHIN OUR PRODUCT RANGE

Please note: there are minimum quantities, technical requirements (e.g. colors, printing options, ...) to be observed for each product. Please do not hesitate to contact our sales team to receive an individual offer!

2. YOU PROVIDE US WITH YOUR DESIGN

Logo, slogan or picture: we will create the tooling insert to achieve the best result for you! If you do not have a high resolution artwork that fulfills the requirements, please feel free to ask our support.

3. ALL DETAILS HAVE BEEN SETTLED

Colors, sizes, quantities, artwork – this is the moment for you to approve the order for production.

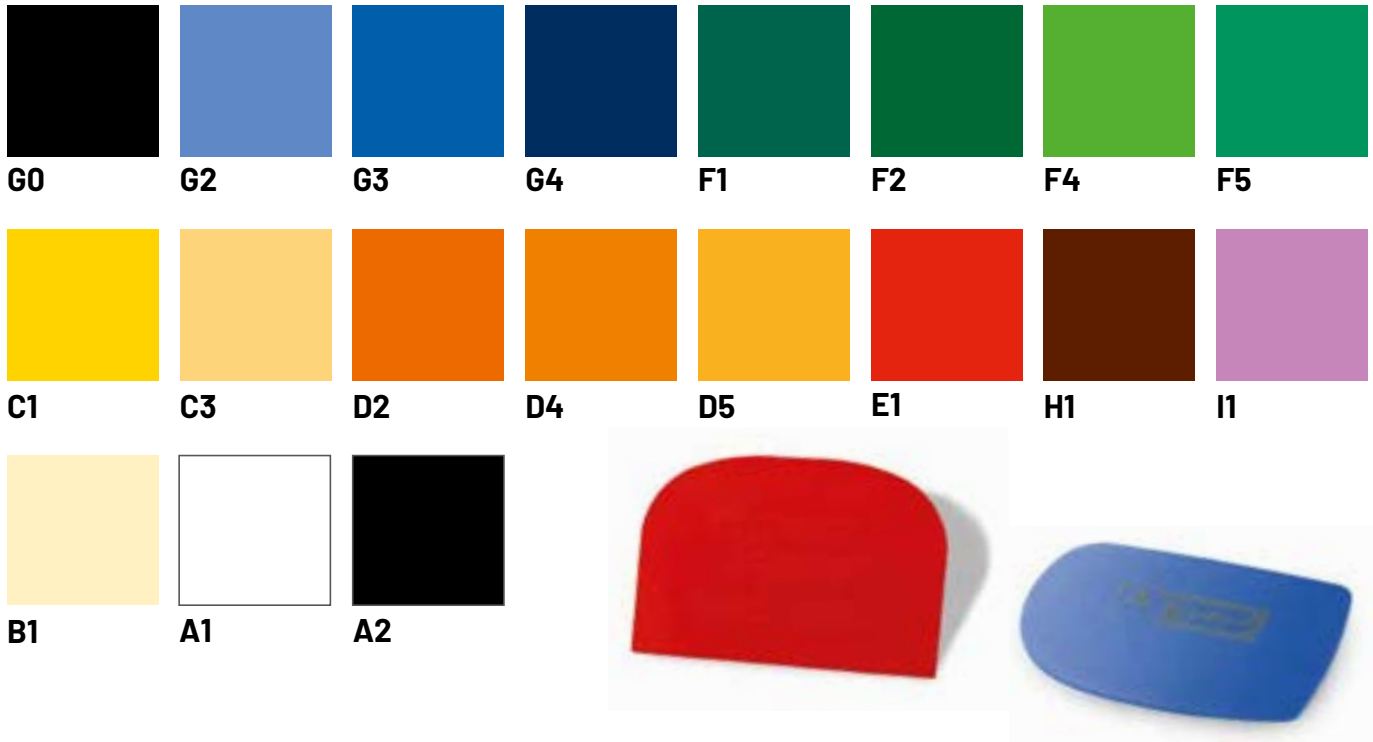

4. ALMOST THERE

We produce and deliver your individual promotional product to you!

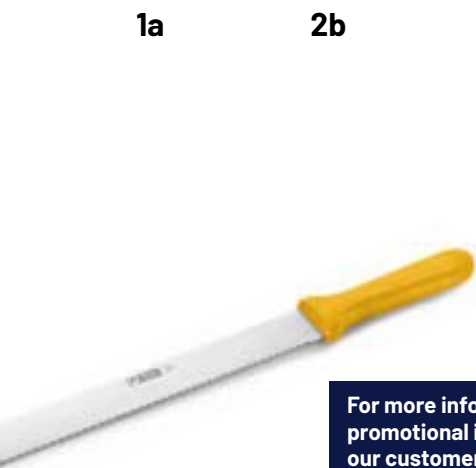

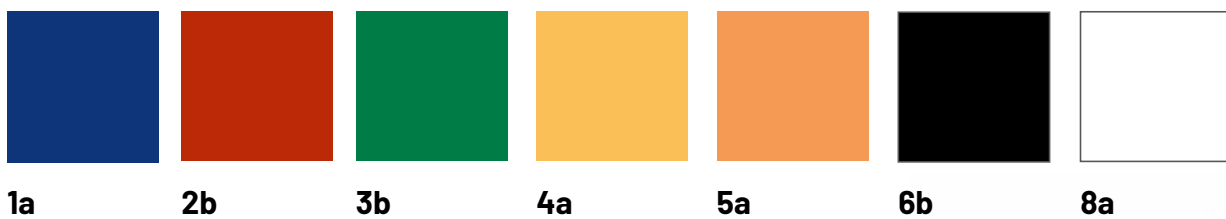

**PROMOTIONAL PRODUCT:
DOUGH SCRAPERS MADE OF PP**

Please choose one of the following colors for your individual scraper (starting on page 54):

**PROMOTIONAL PRODUCT:
ROLL KNIFE, SINGLE SIDED**

The handles are available in following colors:

For more information about other promotional items please contact our customer service. We are happy to help you!

* You will find the symbol explanations on the inside cover pages.

MATERIAL DIRECTORY

MATERIAL	ABBREVIATION	APPEARANCE	HEAT RESISTANCE	FEATURES AND ADVANTAGES OF PRODUCT
acrylnitrilbutadienstyrol	ABS	dull, very hard	approx. - 58 °F up to + 212 °F	shockproof, dishwasher-safe
expanded polypropylene	EPP	inking possible, elastic	approx. - 40 °F up to + 248 °F	lightweight, break-resistant, acid-resistant, odour- and tasteless, dishwasher-safe
ethylene vinyl acetate	EVA	translucent, colorless	from - 58 °F up to + 176 °F	stiff, tear- and shockproof
high-density-polyethylene	HDPE	natural white or colored, dull, soft-elastic	from - 58 °F up to approx. + 203 °F	unbreakable, shock-proof, for a short period of time resistant against boiling water
melamine	MF	white or colored, dull to high gloss, very hard, non-elastic	approx. - 58 °F up to + 212 °F	break-resistant, surface hardness, taste- and odorless, dishwasher-safe
low-density-polyethylene	LDPE	natural white or colored, dull, hard-elastic	from - 58 °F up to approx. + 158 °F	unbreakable, shock-proof, resistant and short-term stable against boiling water
linear low-density polyethylene	LLDPE	natural white or colored	from - 58 °F up to approx. + 176 °F	stiff, extremely puncture-resistant, eco-friendly, water-repellent
polyamide	PA	natural white or colored, dull gloss, stiff	approx. - 40 °F up to + 482 °F	glass fiber-reinforcement possible, hard wearing, unbreakable
polybutylene terephthalate	PBT	natural white	from - 4 °F up to + 212 °F	high strength, acid-resistant
polyacetal	POM	white transparent, inking possible, hard	from - 40 °F up to approx. + 302 °F	short-term and temperature stability, dishwasher- safe
polypropylene	PP	natural white or colored, high gloss, hard-elastic	from 32 °F up to approx. + 221 °F	unbreakable, shock-proof, resistant and short-term stable against boiling water, sterilization possible
polystyrene	PS	crystal clear and gloss	up to approx. + 167 °F	parts under normal stress conditions treated in boiled water
styrolacrylnitril	SAN	transparent or colored, high gloss, stiff	from - 58 °F up to approx. + 212 °F	very hard surface, scratch resistant, for a short period of time insusceptible against temperature, shock-proof
thermoplastic elastomers	TPE	transparent or colored	from - 40 °F up to approx. + 212 °F	elastic, flexible, temperature resistant, lightweight
thermoplastic polyurethane	TPU	transparent or colored	from - 40 °F up to approx. + 212 °F	elastic, flexible, chemically resistant

*We accept no liability for typographical errors, changes, or discrepancies.

This "glass- and fork-symbol" was established by the EC-Recommendation-Association. For thermohäuser this symbol guarantees that our plastic materials are physiologically unobjectionable and food safe.

This symbol indicates the recyclability of all used plastic materials by thermohäuser.
